AK_PROJECT 2025

Circle, l'evoluzione dei moduli del sistema cucina di Arrital

Con Ak_Project 2025, Arrital introduce nuove soluzioni che migliorano l'ergonomia, la funzionalità e la continuità estetica, enfatizzando il design curvo e la modularità presentando i nuovi moduli brevettati Circle, disegnati da Franco Driusso.

L'elemento distintivo è il modulo terminale arrotondato, che introduce curve armoniose su basi, pensili e colonne per un effetto visivo più fluido e accogliente.

La morbida raggiatura di 10cm unisce con perfetta continuità i terminali Circle ai moduli ad essi affiancati.

Un nuovo concept di modularità per una maggiore libertà progettuale.

Questa nuova configurazione consente di creare composizioni più fluide, migliorando la percezione dello spazio e rendendo questo modello ancora più sofisticato ed ergonomico.

Circle è un prodotto di design ed innovazione tutelato da brevetti di Invenzione e di Modello.

EN_ Circle, the evolution of Arrital kitchen system modules

With Ak_Project 2025, Arrital introduces new solutions that improve ergonomics, functionality and visual continuity, focusing on curved design and modularity through the launch of the new patented Circle modules, designed by Franco Driusso. The standout feature is the rounded end module, which brings harmonious curves to base units, wall units and tall units, creating a softer and more welcoming visual effect. The gentle 10 cm radius seamlessly connects the Circle end units with the adjoining modules. A new concept of modularity offering greater design freedom. This new configuration allows for more fluid compositions, enhancing the perception of space and making this model even more sophisticated and ergonomic.

Circle is a product of design and innovation protected by Invention and Utility Model patents.

FR_ Circle, l'évolution des modules du système de cuisine d'Arrital

Avec Ak_Project 2025, Arrital introduit de nouvelles solutions qui améliorent l'ergonomie, la fonctionnalité et la continuité esthétique, en mettant l'accent sur le design incurvé et la modularité, en présentant les nouveaux modules brevetés Circle, conçus par Franco Driusso. L'élément distinctif est le module d'extrémité arrondi, qui introduit des courbes harmonieuses sur les meubles bas, les meubles hauts et les colonnes pour un effet visuel plus fluide et accueillant. L'angle arrondi de 10 cm relie avec une continuité parfaite les modules d'extrémité Circle aux modules juxtaposés. Un nouveau concept de modularité pour une plus grande liberté de conception. Cette nouvelle configuration permet de créer des compositions plus fluides, améliorant la perception de l'espace et rendant ce modèle encore plus sophistiqué et ergonomique.

Circle est un produit de conception et d'innovation protégé par des brevets d'Invention et de Modèle.

ES_ Circle, la evolución de los módulos del sistema de cocina de Arrital

Con Ak_Project 2025, Arrital introduce nuevas soluciones que mejoran la ergonomía, la funcionalidad y la continuidad estética, destacando el diseño curvo y la modularidad al presentar los nuevos módulos patentados Circle, diseñados por Franco Driusso. El elemento distintivo es el módulo terminal redondeado, que introduce curvas armoniosas en los muebles bajos, colgantes y columnas para conseguir un efecto visual más fluido y acogedor. El suave curvado de 10 cm une con perfecta continuidad los terminales Circle con los módulos adyacentes. Un nuevo concepto de modularidad para una mayor libertad de diseño. Esta nueva configuración permite crear composiciones más fluidas, mejorando la percepción del espacio y haciendo que este modelo sea aún más sofisticado y ergonómico.

Circle es un producto de diseño e innovación protegido por patentes de invención y de modelo.

“

Inserendo i moduli Circle in Ak_Project, abbiamo voluto reinterpretare il concetto di modularità, introducendo forme più fluide e un design ancora più ergonomico, aggiungendo ulteriore funzionalità. Questo progetto rappresenta la nostra continua ricerca dell'innovazione e della bellezza funzionale

Design Franco Driusso

EN_ By introducing the Circle modules into Ak_Project, we sought to reinterpret the concept of modularity, proposing more fluid forms and an even more ergonomic design, while adding further functionality. This project winnovation and functional beauty.

FR_ En insérant les modules Circle dans Ak_Project, nous avons voulu réinterpréter le concept de modularité, en introduisant des formes plus fluides et un design encore plus ergonomique, ajoutant des fonctionnalités supplémentaires. Ce projet représente notre recherche continue d'innovation et de beauté fonctionnelle

ES_ Al introducir los módulos Circle en Ak_Project, queríamos reinterpretar el concepto de modularidad, introduciendo formas más fluidas y un diseño aún más ergonómico, añadiendo funcionalidad adicional. Este proyecto representa nuestra continua búsqueda de la innovación y la belleza funcional

Il design curvo che ridisegna gli spazi

Ak_Project di Arrital introduce il concetto di morbidezza e continuità estetica nel mondo della cucina con i moduli Circle.

EN_ The curved design that reshapes spaces
Arrital's Ak_Project introduces the concept of softness and stylistic continuity to the kitchen world with its Circle modules.

FR_ Le design incurvé qui redessine les espaces
Ak_Project par Arrital introduit le concept de douceur et de continuité esthétique dans le monde de la cuisine avec les modules Circle.

ES_ El diseño curvo que rediseña los espacios
Ak_Project de Arrital introduce el concepto de suavidad y continuidad estética en el mundo de la cocina con los módulos Circle.

IT_ Raccordi perfetti tra i vari elementi grazie anche all'anta Plus di Ak_Project. Questa consente di variare l'altezza da 79 a 82 cm, unendo armoniosamente sia i moduli Circle, i moduli terminali a giorno o semplicemente i fianchi a ridosso.

EN_ Perfect transitions between the various elements, also thanks to the Ak_Project Plus door. This allows a variation in height from 79 to 82 cm, harmoniously linking the Circle modules, open side panels, or simply adjacent side panels.

FR_ Des raccords parfaits entre les différents éléments grâce également à la porte Plus d'Ak_Project. Cela permet de varier de la hauteur de 79 à la 82 cm en unissant harmonieusement les modules Circle, les modules d'extrémité ouverts ou simplement les panneaux latéraux.

ES_ Conexiones perfectas entre los distintos elementos gracias a la puerta Plus de Ak_Project. Esto permite variar la altura de 79 a 82 cm, uniendo de forma armoniosa los módulos Circle, los terminales abiertos o simplemente los laterales adosados.

IT_ Vani a giorno nelle curvature, per un'estetica raffinata e maggiore praticità di contenimento.

EN_ Open compartments within the curves, for a refined aesthetic and more practical storage.

FR_ Compartiments ouverts dans les parties arrondies, pour une esthétique raffinée et une plus grande commodité de rangement.

ES_ Elementos abiertos en las curvas, para una estética refinada y una mayor practicidad de almacenamiento.

IT_ Vani apribili arrotondati su
colonne, con retroilluminazione.

FR_ Compartiments ouvrants
arrondis sur les colonnes, avec
rétroéclairage.

EN_ Rounded openable
compartments on tall units, with
backlighting.

ES_ Compartimentos que se pueden
abrir redondeados sobre columnas,
con retroiluminación.

Nuove soluzioni funzionali: spazio e ergonomia ottimizzati

Con i moduli Circle, l’innovazione va oltre l’estetica: funzionalità ed ergonomia si uniscono in soluzioni brevettate che migliorano concretamente l’esperienza d’uso.

EN_ New functional solutions: optimised space and ergonomics
With the Circle modules, innovation goes beyond aesthetics: functionality and ergonomics come together in patented solutions that measurably improve the user experience.

FR_ Nouvelles solutions fonctionnelles: espace et ergonomie optimisés
Avec les modules Circle, l'innovation va au-delà de l'esthétique: fonctionnalité et ergonomie s'unissent dans des solutions brevetées qui améliorent l'expérience d'utilisation de manière concrète.

ES_ Nuevas soluciones funcionales: espacio y ergonomía optimizados
Con los módulos Circle, la innovación va más allá de la estética: la funcionalidad y la ergonomía se unen en soluciones patentadas que mejoran de forma concreta la experiencia de uso.

IT_ Cestone curvo ad estrazione nei moduli arrotondati laterali, per massimizzare lo spazio senza sprechi.

EN_ Curved pull-out deep drawer in the rounded side modules, to optimise the space.

FR_ Compartiments ouverts dans les parties arrondies, pour une esthétique raffinée et une plus grande commodité de rangement.

ES_ Elementos abiertos en las curvas, para una estética refinada y una mayor practicidad de almacenamiento.

IT_ Ak_Project rafforza ulteriormente la sua visione di design integrato, in cui ogni elemento dialoga con gli altri per creare un'esperienza abitativa armoniosa e sofisticata.

EN_ Ak_Project further strengthens its vision of integrated design, where every element interacts with the others to create a harmonious and sophisticated living experience.

FR_ Ak_Project renforce d'avantage sa vision du design intégré, où chaque élément interagit avec les autres pour créer une expérience de vie harmonieuse et sophistiquée.

ES_ Ak_Project refuerza aún más su visión de diseño integrado, en la que cada elemento dialoga con los demás para crear una experiencia de vida armoniosa y sofisticada.

SOLARIA
OUTDOOR KITCHEN

Design e prestazioni senza compromessi

Arrital amplia la propria visione dell’abitare e presenta Solaria, la sua prima cucina outdoor, progettata dall’architetto Franco Driusso. Un sistema pensato per garantire le massime prestazioni in ambienti esterni, combinando materiali tecnici di altissima qualità con un design distintivo e riconoscibile.

L’obiettivo è stato chiaro fin dall’inizio: non creare una semplice reinterpretazione da esterno di una cucina indoor, ma sviluppare un prodotto realmente pensato per resistere alle condizioni atmosferiche, garantendo la massima durabilità e affidabilità.

Solaria è composta principalmente da elementi in acciaio AISI 316, con la possibilità di personalizzare l’estetica grazie a materiali e finiture di alta qualità.

Solaria è un prodotto di design ed innovazione tutelato da brevetti di Invenzione e di Modello.

EN_ Design and performance without compromise

Arrital expands its vision of contemporary living with Solaria, its first outdoor kitchen, designed by architect Franco Driusso. Solaria is a system inspired by the desire to deliver top-tier performance in outdoor settings, combining premium technical materials with a distinctive and recognisable design. The objective was clear from the outset: not to create a mere outdoor version of an indoor kitchen, but to develop a product genuinely engineered to withstand weather conditions while ensuring maximum durability and reliability. Solaria is primarily composed of elements in AISI 316 steel, with the option for stylish personalisation thanks to high-quality materials and finishes.

Solaria is a design and innovation product protected by Invention and Model patents.

FR_ Design et performances sans compromis

Arrital élargit sa vision de l’habitat et présente Solaria, sa première cuisine extérieure, conçue par l’architecte Franco Driusso. Un système pensé pour garantir le maximum de performance dans des espaces extérieurs, en associant des matériaux techniques de la plus haute qualité à un design distinctif et reconnaissable. L’objectif était clair dès le début : pas seulement la création d’une simple réinterprétation pour extérieur d’une cuisine intérieure, mais le développement d’un produit réellement conçu pour résister à les conditions météorologiques pour garantir une durabilité et une fiabilité maximales. Solaria est principalement composée d’éléments en acier AISI 316, avec la possibilité de personnaliser l’esthétique grâce à des matériaux et des finitions de haute qualité.

Solaria est un produit de conception et d’innovation protégé par des brevets d’Invention et de Modèle.

ES_ Diseño y prestaciones sin compromisos

Arrital amplía su visión de la forma de vivir y presenta Solaria, su primera cocina de exterior, diseñada por el arquitecto Franco Driusso. Un sistema creado para garantizar las máximas prestaciones en exteriores, combinando materiales técnicos de la más alta calidad con un diseño distintivo y reconocible. El objetivo estaba claro desde el principio: no crear una simple reinterpretación de una cocina de interior para exteriores, sino desarrollar un producto realmente diseñado para resistir las condiciones climáticas garantizando la máxima durabilidad y fiabilidad. Solaria se compone principalmente de elementos de acero AISI 316, con la posibilidad de personalizar la estética gracias a materiales y acabados de alta calidad.

Solaria es un producto de diseño e innovación protegido por patentes de invención y de modelo.

“

Volevamo un prodotto realmente pensato per l'outdoor, senza compromessi.

Abbiamo studiato materiali, dettagli e soluzioni tecniche per creare una cucina funzionale, resistente e dal forte carattere estetico, che esalti tutta la qualità e l'identità di Arrital

Design Franco Driusso

EN_ We wanted a product genuinely conceived for outdoor use, without compromise. We studied materials, details and technical solutions to create a kitchen that is functional, durable and visually striking, and that at the same time reflects Arrital quality and identity.

FR_ Nous voulions un produit réellement pensé pour l'extérieur, sans compromis. Nous avons étudié les matériaux, les détails et les solutions techniques pour créer une cuisine fonctionnelle, résistante et au caractère esthétique fort, qui met en valeur toute la qualité et l'identité d'Arrital.

ES_ Queríamos un producto realmente pensado para el aire libre, sin compromisos. Hemos estudiado materiales, detalles y soluciones técnicas para crear una cocina funcional, resistente y con un fuerte carácter estético, que realce toda la calidad e identidad de Arrital.

FRASSINO TERMOTRATTATO | Essenza

AISI 316 | Acciaio

Solaria monoblocco freestanding

Perfetta per terrazze e giardini con pavimentazione. I piedini di Solaria sono regolabili per l’adattamento alla superficie di appoggio.

EN_ Freestanding single kitchen unit
Perfect for terraces and gardens with flooring. Solaria feet are adjustable to adapt to the ground.

FR_ Cuisine monobloc indépendante
Parfaite pour terrasses et jardins avec du sol. Les petits pieds de Solaria sont réglables pour les adapter au mieux à la surface d'appui.

ES_ Cocina monobloque freestanding
Perfecta para terrazas y jardines azulejados. Las patas Solaria son regulables para adaptarla al suelo.

IT_ Solaria porta nell'outdoor la sua filosofia progettuale, offrendo una soluzione che coniuga prestazioni professionali, innovazione e design d'eccellenza.

EN_ Solaria brings its design philosophy outdoor, offering a solution that combines professional-grade performance, innovation and design excellence.

FR_ Solaria apporte sa philosophie de conception dans l'outdoor, offrant une solution qui allie performances professionnelles, innovation et design d'excellence.

ES_ Solaria lleva al aire libre su filosofía de diseño, ofreciendo una solución que combina prestaciones profesionales, innovación y diseño de excelencia.

IT_ Struttura modulare in acciaio AISI 316, il massimo standard per la resistenza alla corrosione e agli agenti atmosferici. Sistema di drenaggio integrato, con canali di scolo in acciaio traforato tra basi e schiena per consentire il corretto deflusso dell'acqua e areazione naturale.

EN_ Modular frame in AISI 316 steel, the gold standard for corrosion and weather resistance. Integrated drainage system, with perforated steel channels between the base units and back panels to ensure proper water runoff and natural ventilation.

FR_ Structure modulaire en acier AISI 316, le plus haut standard de résistance à la corrosion et aux agents atmosphériques. Système de drainage intégré, avec des canaux de drainage en acier perforé entre les meubles bas et le fond pour permettre un drainage correct de l'eau et une aération naturelle.

ES_ Estructura modular de acero AISI 316, el máximo estándar de resistencia a la corrosión y a los agentes atmosféricos. Sistema de drenaje integrado, con canales de drenaje de acero perforado entre las bases y la parte trasera para permitir el correcto drenaje del agua y la ventilación natural.

IT_ Chiusura planare sul lavello, per aumentare lo spazio del piano di lavoro, ottimizzando le superfici d'appoggio quando il lavello non è in uso.
Moduli cottura professionali e personalizzabili, tra cui piastra Teppanyaki, BBQ, moduli a induzione o gas.

EN_ Flush-fit sink cover, which increases the usable worktop area by optimising surface space when the sink is not in use.
Professional and customisable cooking modules, including Teppanyaki hot plate, BBQ, induction or gas modules.

FR_ Fermeture plate sur l'évier, pour augmenter l'espace sur le plan de travail, et optimiser ainsi les surfaces d'appui lorsque l'évier n'est pas utilisé.
Modules de cuisine professionnels et personnalisables, parmi lesquels plaque de cuisson Teppanyaki, BBQ, modules à induction ou à gaz.

ES_ Cierre plano en el fregadero, para aumentar el espacio de la encimera, optimizando las superficies de apoyo cuando el fregadero no está en uso.
Módulos de cocción profesionales y personalizables, entre los que se incluyen Placa Teppanyaki, BBQ, módulos de inducción o gas.

IT_ Solaria è composta principalmente da elementi in acciaio AISI 316, con la possibilità di personalizzare l'estetica grazie a materiali e finiture di alta qualità, come Frassino termotrattato, per resistere agli agenti atmosferici, applicabile allo snack (spessore 4 cm) e ai listelli dei ripiani del livello inferiore, e grès porcellanato o MDi, per un look raffinato e resistente, utilizzabile per top e piano inferiore.

EN_ Solaria is primarily composed of elements in AISI 316 steel, with the option for stylish personalisation thanks to high-quality materials and finishes, as Heat-treated ashwood, designed to withstand the elements, applicable to the snack counter (4 cm thick) and lower-level shelf slats and Porcelain stoneware or MDi, for a sophisticated and durable look, available for the tops and lower surfaces.

FR_ Solaria est principalement composée d'éléments en acier AISI 316, avec la possibilité de personnaliser l'esthétique grâce à des matériaux et des finitions de haute qualité, comme Frêne thermotraité, pour résister aux agents météorologiques, applicable au snack-bar (épaisseur 4 cm) et aux tasseaux des étagères du niveau inférieur et Grès cérame o MDi, pour un look raffiné et résistant, utilisable pour les plans de travail et le plateau inférieur.

ES_ Solaria se compone principalmente de elementos de acero AISI 316, con la posibilidad de personalizar la estética gracias a materiales y acabados de alta calidad, como Fresno termotratado, para resistir a los agentes atmosféricos, aplicable a los snack (grosor 4 cm) y a los listones de los estantes del nivel inferior y Gres porcelánico o MDi, para un aspecto refinado y resistente, utilizable para la parte superior y la parte inferior.
